

THE 3905 CENTURY CLUB, INC.
SOLAR SYSTEM (ANNUAL) AWARD APPLICATION
(MULTIBAND / EACH MODE SEPARATELY)
(NOT ENDORSABLE))

The Solar System Award is earned by working contacts that allow spelling the names of the major objects in the Solar System using letters from call signs – all contacts to be worked during any one-year period – one revolution of the Earth about the Sun – (or less) of the applicant's choosing. This award may be earned on the SSB nets, or CW nets, or the combined Digital nets. Bands may be combined as long as the mode remains the same, with RTTY and PSK considered to be the same mode.

GENERAL REQUIREMENTS (for all modes):

1. All applicants for this award must hold a 100-Point Certificate for the mode for which an application for this award is submitted.
2. All contacts must be made on ***The 3905 Century Club, Inc.*** nets and must be on the same mode.
3. No contact made before May 1, 2006 may be used toward this award. All QSLs applied toward this award may be used on other Club awards that do not specifically restrict their use.
4. ***DO NOT*** use any call sign to spell more than one object.

NOTE: Any call sign modified by PORTABLE or MOBILE and/or a different US call area or DX entity is considered a different call sign for the purpose of this award. (See Definitions in the Bylaws, Article VI.)

5. All contacts applied toward this award must have been made within a one-year period of the applicant's choosing. For the purpose of this award, a year is defined as running from the beginning of the ZULU date on the first contact applied toward the award to the end of the ZULU date before that date in the following year.
6. The Sun, Moons, and each of the planets (plus Pluto) have been assigned call areas as shown in the table below. The objective of this award is to use letters from call signs to spell the names of all the listed objects in the Solar System.

CALL AREA	SOLAR SYSTEM OBJECT
0	Sol
1	Mercury
2	Venus
3	Earth
4	Mars
5	Jupiter
6	Saturn
7	Uranus
8	Neptune
9	Pluto
DX	Moons

- Any letter(s) and/or all letters in a call sign may be used to spell the same object name. Letters in modifiers (/M or /P or any portion of out-of-country designators) may NOT be used to spell any object names. It may be possible to spell the object name using only one or two QSLs, providing the call signs contain all the letters to complete the object name.
- When a letter occurs more than once in a name, as in Mercury, Uranus, Neptune, and Moons, a single call sign letter from a single QSL may be used for both duplicated name letters.
- If mobile or portable contacts are used, the call area where the contact was mobile or portable is the call area to be used when completing this application. The term “call area” for this award is defined as US call areas 0 – 9 and DX.
- No extra QSLs allowed. All QSLs submitted must contain at least one letter in the call sign that is applied to the spelling of an object name.

SPECIFIC SSB MODE REQUIREMENTS:

- All call signs used to spell the object names (see table on page 1) must have been located in the designated call area when the contact was made. To spell the object “SOL” all calls used must have been located in the “0” (10th) call area; for “MERCURY,” all calls used must have been located in the 1st call area, and so on.

SPECIFIC CW MODE REQUIREMENTS:

- At least one of the call signs used to spell the object names (see table on page 1) must have been located in the designated call area when the contact was made. The remaining call signs used to spell the object name may be from ANY call area, including DX.

SPECIFIC DIGITAL MODE REQUIREMENTS:

- RTTY and PSK mode contacts may be combined toward this award.
- RTTY and PSK mode requirements are the same as for CW.

EXAMPLES:

SSB EXAMPLE 1	SSB EXAMPLE 2	CW or DIGITAL EXAMPLE 1	CW or DIGITAL EXAMPLE 2
S - KA0S ¹ HC	M - KB1M ¹ KU	S - N4S ¹ MH	M - NC4M ¹ O
O - KC0O ¹ CC	E - KD1E ¹ J	O - KC0O ¹ CC	O - NC4M ¹ O
L - W0AL ¹ W	R - K1AR ¹ N	L - W5OHL ¹	O - NC4M ¹ O
	C - K1AC ¹ N		N - NC4M ¹ O
	U - KB1MK ¹ U		S - VK4IS ¹
	R - K1AR ¹ N		
	Y - N2ABY/M1 ¹		
ALL CONTACTS ARE IN THE 10 TH CALL AREA AND CONTAIN THE REQUIRED LETTERS TO COMPLETE THE OBJECT NAME	ALL CONTACTS ARE IN THE 1 ST CALL AREA AND CONTAIN THE REQUIRED LETTERS TO COMPLETE THE OBJECT NAME. NOTE THAT KB1MKU WAS USED TWICE, ONCE FOR “M” AND ONCE FOR “U,” AND K1ARN WAS USED TWICE FOR THE LETTER “R.”	AT LEAST ONE CONTACT, KC0OCC, IS IN THE 10 TH CALL AREA AND “SOL” HAS BEEN SPELLED.	AT LEAST ONE CONTACT IS IN THE DX CALL AREA AND “MOONS” HAS BEEN SPELLED. NOTE THAT NC4MO WAS USED FOR 4 LETTERS. THIS IS A PRIME EXAMPLE OF IMAGINATION AND STRATEGY.

SUBMITTING APPLICATIONS:

1. After first assuring that each QSL used toward this award conforms to all of the requirements above, refer to the standard instructions contained in the application for the 100-Point Award, the SWL Award, or on our web site (Awards Program, General Information), or included with this application if it was obtained by postal mail, for submitting applications and paying awards/endorsement fees.

PLEASE MAIL IN ONLY THE LAST TWO PAGES OF THIS FORM WHEN SUBMITTING YOUR APPLICATION !!!

GOOD LUCK !!! HAVE FUN !!!

GIVE OUR OTHER ANNUAL AWARDS A TRY !!!

**THE 3905 CENTURY CLUB, INC.
SOLAR SYSTEM (ANNUAL) AWARD APPLICATION**

Please see application for details. Arrange QSLs in order listed below.
