Renewal

It's spring fever. That is what the name of it is. And when you've got it, you want - oh, you don't quite know what it is you do want, but it just fairly makes your heart ache, you want it so!

~Mark Twain~

Oh what a great time of year when we can make the transition from the cold dreary beauty we call winter to the warm bustling days we call Summer.

To tie all this together is springtime. We have come through another season of long nights and eventful propagation on the lower bands and we now have hope for many more friendships renewed on the higher frequencies. 160M and 75M have had their share of fun and frolicking it is now time for them to rest and let 40M shine. The cycles of the ever important sunspots coming alive and showering us with the ever

important bombardment of radiation that charges our ionosphere making all our efforts in communication through radio possible. Then once the sunspots have had their day they subside and rest for a season helping us reflect on the great times we have all enjoyed. Change is inevitable, all of us have been through changes one way or another from learning to talk and communicate to walking and moving through our environment. We have all changed from the time we are born to the time we will eventually leave this mortal existence. Families ebb through their own cycles we add new members and lose others, we learn to deal with change. The communities we live in grow and try to bring us a better life. Even the United States ebbs through the cycles of change through a long drawn out process which seems to take forever, in the end the people come together and make the change they feel can lead their country to a better and brighter

future. So it is with the 3905 Century Club. We too go through times of change and renewal. This year we have held elections for our president of the club and for the even number call areas directors.

2012 Election

Voting in Election 2012 began at midnight (Central Time) December 31, 2011 for the election of Club President, Even-Numbered Area Directors and 3rd Area Director, and all balloting ended midnight CST, Feb. 15th.

Voting for Director was conducted on-line or by postal mail to the Election Monitor (address below). Votes for Director on-line or by postal mail must have been received on or before Jan. 31st, 2012.

Voting for President was conducted on-line or by postal mail to the Election Monitor (address below) with a final opportunity to cast a ballot on-air on the 40M and 75M SSB Early Nets on Feb. 15th local date. Votes for President on-line or by postal mail must have been received on or before midnight (CST) Feb. 15th, 2012.

All members were strongly encouraged to vote on-line or by postal mail to avoid disappointment if conditions for the nets on Feb. 15th (CST) were poor, and conditions were up and down like a yo-yo on the 75M net, but all who wished to cast a ballot were able to do so.

All individual members holding a 100-Point Certificate on any Century Club net were eligible to vote for President. To vote for an Area Director, members must reside in the call area for which that candidate for Director was running. Only individual members may vote and a 100-Point Certificate number and the band/mode on which it was held was required when voting. Clubs and Special Event calls, even if holding a 100-Point Certificate, were not eligible to vote. All ballots were verified against the Club membership roster.

Election 2012 - Final Results

(Winning candidates in bold red)

	Candidates	Votes
President	Russ Sawyer - W2UJ	142
	Glen Felt - WT0A	99
2nd Area	Peter Summers - N2XTT (I)	14
3rd Area	Roger Goodreau - W3ROG	9
4th Area	Ronnie Stanley - NC4RS (I)	45
	Robert Duckworth - KE4DYG	1
6th Area	George Huett - W6LJK	8
8th Area	Ron Belanger - K8PGM	14
10th Area	Ray Myers - WB0PYF (I)	29

(I) = Incumbent

President Russ Sawyer - W2UJ

I got my start in this wonderful hobby in 1963 when I sent away for the Short Wave Listener "call sign" - then issued by Popular Electronics magazine. This was at the same time I joined an activity club at my junior high school - called the "radio club". The leader of the club was a high school senior and he completely captured my imagination with his description of amateur radio. I was hooked! I 'aced' my novice exam, given at the high school and first got on the air as WN1AXB in November of 1963. Over the years, I've 'sampled' a lot of the different aspects that make this hobby so great - rag chewing, DXing, county hunting, field days, public service nets . and they've all been enjoyable. 75 meters has always been my favorite band and currently I find myself spending a great deal of time on the 3905 Century Club net - nightly at 10PM Eastern Time on 3.902 I'm having a blast working on their many fine awards. Stop by and say 'hello'.

73, Russ

2nd Area Director: Peter Summers - N2XTT

Peter is a long time member of the 3905 Century club Master degree award number 6 holder Awards Committee member he is also the trustee of the club call K4CCN. Peter is the holder of the 38K award on 40M and 21K award on 75M and still going.

3rd Area Director: Roger Goodreau - W3ROG

Resides in Forest Hill, MD. Roger is Active on the 3905 Century Club DX and Award nets.
Stop on by. Membership is not required, all amateurs are welcome Stateside and DX.

4th Area Director: Ronnie Stanley - NC4RS

Born and still living in Greensboro, N.C. I have been talking on the radio since the early 60's. I started out on 11 meters but quickly knew that there had to be more out there. I also restore antique Autos. Here I am in one of my cars.

A 1930 Ford Model A coupe Dlx with rumble seat. This car won a National first place in 1997.

I enjoy talking on the radio, all bands! Hope to talk with you soon. I am active on all bands. Enjoy the Century Club net at nights on 40, 75 and 160 meters. I have been really enjoying the CW and Digital modes lately

QSL 100 % through my QRZ address or through : WM9H Century Club Buro.

Ron (NC4RS) 73's

3905 Century Club Master Degree Holder #31

6th Area Director: George Huett - W6LJK

George is not only the 6th Area director but our 40M Late net coordinator. He resides in Anaheim CA. He does not run a mickey mouse operation. Or does he? He has a great station and it is always a great pleasure to hear him on the nets.

8th Area Director: Ron Belanger - K8PGM

I was born and raised in the state of Maine, although by the time I graduated from high school we had moved to Connecticut. When the shoe shop in Saco, Maine had closed my dad went to work as a tanner for Garlands (rawhide mallets) and they eventually converted to plastics meaning there was little need for a tanner so, we ended up in Connecticut. I still managed to get back "Home" every summer and did much of my hunting/fishing in Maine as well. I guess you can take the kid out of Maine, but you'll never take Maine out of the kid!

After high school I joined the Navy. I guess I figured out at an early age that going to college wasn't in my future. I didn't like school and thought wasting my folks money doing something I didn't want to do wasn't such a wise move. While I hated school, I loved to read, and had the idea (right or wrong) there was nothing school could teach me that I couldn't learn on my own. While a formal education was never acquired, I'd match libraries with most who are not doctors or lawyers. Someone once told me I missed out on the fun of going to school. My response is usually "Really?" How much fun can an 18 year old have stationed in the Med for 3 years when the ports of call include everywhere from Spain to Yugoslavia? No, there will be no sea stories shared here you'll just have to use your imagination.

I would eventually spend the last 14 years of my naval service in Washington D.C. with a preferentially manned White House Unit. It was in 1975 while living in Maryland that I was first licensed as a "Ham." I went from Novice to Advanced (WB3GZI) in no time but never got my Extra license. I just got so busy with the Navy and providing for my family with part time jobs it just got shelved. I would spend hours however running phone patches for ships at sea and deployed personnel as far away as the Antarctic. Sometimes on the weekends and holidays I'd run those patches until the wee hours of the morning. I used to really look forward to Sunday evening as a good friend and fellow service member and I had a regular schedule with "Pappy Boyington" who had retired in Hawaii.

10th Area Director: Ray Myers - WBØPYF

I have been a ham for about 37 years. I enjoy working CW. I joined FISTS Club (#7986) and had a lot of fun (www.fists.org).

I have also joined the 3905 CCN Club. It is a DX and WAS club. Have brushed off my mic and made many new friends on SSB, CW and also 160 M. Also, because of the 3905 CCN Club, I have ventured into the world of digital. What fun on such low power (www.3905ccn.com).

My grandfather was W9GHX and when I was a novice I used his old gear. I only had xtals for 80m and 40m CW (3). I still have some of his equipment and occasionally I am on the air working CW on the 80 and 40-meter bands.

See his club information @ <http://www.qrz.com/db/W9GHX>.

If anyone has an old QSL card from him I would like to have it or a copy of it.

My current rig is a Icom IC-756-3 and am using a Gap Titan vertical antenna on a roof mount or a 80m dipole up 55 feet. I have a Yaesu FT-100D which I use mobile and a QRP Heathkit HW-8 which I enjoy operating portable or fixed.

I recently have become disabled and I am now confined to a wheel chair. If I am a little slow on the mike or a little sloppy on the key, I am sorry, pedaling as fast as I can with one hand hi hi. My how life can change so quickly. Always remember to enjoy life every day and live it daily to its fullest.

I am a registered civil engineer by profession, but currently I am not working. I also am a CFII flight instructor and teach private, instrument and commercial ground school.

I try and QSL 100% as I enjoy collecting cards from all over.

The Century club is lucky to have these great people running the affairs of the club and I would like to voice the appreciation of all for their service in making this a great club involving many of us interested in this fine hobby.

Editors note: It is great to get to know the many members of our club and I would like to hear from more of you if you would be willing to share you biographies with the rest of the club please contract me

Ricky Asper AC7RA rick@theasper.net

Wandering Ham

Mobiling as a Combo

By David Bartholomew AD7DB

I have an Icom 706MkIIg which I bought in 2001. My brother John N7JY has a Kenwood TS-430S he's had for many years. We've traded off and used both radios at one time or another during our combo trips. Antennas used have been Lakeview Hamsticks for 40m and 75m, a tuned whip antenna using an Icom AH-4 automatic tuner, and a Don Johnson screwdriver antenna. Of all of these, the Screwdriver seemed to work best, but I have had good success with the others.

Output power used has typically been 50-100 watts. We had too much of a voltage drop with full power on N7JY's setup until John beefed up the deep cycle battery situation; when transmitting at full power, it sometimes dropped the voltage down below 11 volts and the radio would shut off. He solved that by adding more batteries in parallel.

Some of the highlights of our mobiling as a combo over the years:

California to Illinois and back in 2002. We operated from twelve states, including three state capitals and at one state line. We used my Icom radio which I'd owned less than a year at that time, and a Hamstick antenna for just 40 meters. Our operating locations included roadside pullouts, campgrounds, just parking on the street, or in various parking lots.

In Washington Kansas, it was rapidly approaching 11:00pm and we left US-36 and went into

the town, which as you can guess was completely closed for the night. We found a small bowling alley with an empty parking lot, so we parked there for the night and that's where we checked into the 40 meter late net. Sometime later during the night a vehicle went slowly into the lot and back out again; I figure it was likely the local police making sure we were harmless. Early in the morning we departed, and wouldn't you know, just a short distance east of town on US-36 there was a wonderful little roadside park we could have stayed in. But, we didn't know about it.

In one small Missouri town we decided to park overnight on a side street. Just as we were getting set up to get on the net, a local policeman came by to see what we were doing. He advised us to move down the street a little bit further (probably so he could keep an eye on us better). We did, but it placed us closer to an electrically noisy street light. Oh well.

The one and only night we operated from Iowa that trip, we had checked into a commercial campground in Keokuk. Rather than check in as a combo, we each checked into the net separately. This is so that we could take turns using the shower while the other was using the radio. I think this slightly annoyed a few of the other folks checked in that night, when things happened such as, "AD7DB is checking out, but N7JY wants to check in. No, they're not a combo tonight."

Various trips to Nevada, Utah, Arizona. On one trip I operated from two different state line pairs, in and near Mesquite NV, that were several miles apart. I've also operated from within Phoenix AZ several times.

The trip to the Eyeball in the Pacific Northwest in 2004. We operated (or at least attempted) from state capitals of California, Oregon and Washington.

Our big trip to Yellowstone in 2008. We operated as a combo from three National Parks to stir up activity for the new award, as well as activated some of the intermountain states and one more state capital.

Road trip in 2009 to try to operate from six National Parks in one week. We got to operate from just five of them: Grand Canyon, Bryce Canyon, Canyonlands, Arches, and Zion. Capitol Reef will require a return trip; there was too much QRN there that night. But we traveled and toured around by day, and got on the nets at night.

We have also operated from two other National Parks that should be considered "right next door" for anyone in Southern California: Joshua Tree, and Channel Islands.

I operated alone from Death Valley in 2010. Also during that weekend I operated from outside Las Vegas, trying to work N7JY who was mobile in Ohio at the time. (He took a real long trip, please read his article for details!) This was not my first time operating HF from Death Valley; in 2004 I did it as a stunt for a local repeater group. John's article will fill you in (he was my accomplice), or you can read all about that here: <http://www.qsl.net/ad7db/newlow.html>

I generally keep the windows up and the doors locked, especially when operating alone at night. One time I was operating from outside of St George, Utah. Earlier that day I'd searched for a spot to operate from the Arizona/Utah line on I-15 in that area, and didn't find a suitable spot, so I just operated from Utah that night. I found a quiet place on a dirt frontage road on the west side of the freeway. During the net that night, I caught some movement in the darkness – it was a coyote checking out my truck! Needless to say I didn't venture outside the truck without a complete check with a flashlight. (That particular location no longer exists; it is covered now by a new overpass for the road going to the new airport. Looking at the situation, the new road goes right down by the state line a little east of there, and should be a good spot if there are no power lines around.)

I think by far the most fun has been when we could both attend a 3905 Eyeball. We've been able to go to recent ones in Oregon, California, and Mississippi-Louisiana. We've been able to get in on the Antenna Shootouts, and the local QRP nets, as well as the regular evening nets, to provide contacts with our callsigns to many people. It's also great fun to meet people in person you have only talked to previously on the air.

73... Dave AD7DB

The Wandering Ham column has been a great section of the Centurion. I really enjoy hearing the many adventures our members have while trying to bring us contacts across the country and across the world. This news letter is provided to you by you. So please keep submitting articles and tell the rest of us the many fun adventures you are on.

New Masters

Master #61

Russ Sawyer - W2UJ

I got my start in this wonderful hobby in 1963 when I sent away for the Short Wave Listener “call sign” - then issued by Popular Electronics magazine. This was at the same time I joined an activity club at my junior high school - called the “radio club”. The leader of the club was a high school senior and he completely captured my imagination with his description of amateur radio. I was hooked! I ‘aced’ my novice exam, given at the high school and first got on the air as WN1AXB in November of 1963. Over the years, I’ve ‘sampled’ a lot of the different aspects that make this hobby so great - rag chewing, DXing, county hunting, field days, public service nets . and they’ve all been enjoyable. 75 meters has always been my favorite band and currently I find myself spending a great deal of time on the 3905 Century Club net - nightly at 10PM Eastern Time on 3.902 I’m having a blast working on their many fine awards. Stop by and say ‘hello’.

Master #62

Donnie Hurst - KG4ZOD

Donnie recieved his first Century club award in 2007. He has earned 51 awards so far. Including Master #62. Donnie has been the gracious host to many of our members at his home in North Carolina, as has been evident by the many photos and stories provided to the Centurion. Donnie started the visiting hams section and encourages all to provide photos and stories about your meetings with each other. Donnie is one of our great net control operators for the late nets. Donnie has been a great friend to all members of the club.

Master #63

Carl Durnavich - W9OO

Ham radio began in 1963 for me at age 12. I dropped dad’s five tube “all American” AM radio from my backyard tree fort to the ground. Strange whistles and noises erupted from the speaker, then suddenly the sound of a man talking about our hometown. My pal, Charlie, said it was a local ham radio operator. A visit to his house later, and I was hooked.

My ham radio hero at the time was Clif Corne, K9E-AB, who was the first to do the impossible: work all U.S. counties. But Clif did it while living in an iron lung. As WN9PQY in 1965, I joined the initial awards net, then called the Certificate Hunters Club, later as WA9SXQ with my general class license.

In 1970, the Marines borrowed me for two years, but afforded me a dream position as a MARS operator at W4PKS in Camp Lejeune, NC and KG4EQ in Cuba. I wasn’t very spit shine, but I could run phone patches like a banshee!

In 1977 I stumbled across the 3905 Century Club Net and made a few contacts. The net was in its infancy, and confusion reigned, so much so I gave it a year to last. (I’ve since given up predicting the future). I ate the 10-10 paper candy for a while, then other interests put ham radio in mothballs until 1988, when I mixed county hunting with the Century Club, attending the Starved Rock, IL eyeball in 1994. The informality and casual nature is what sold me on the Club--I was impressed by the Board of Directors meeting there, held around a campfire.

Mobiling was my haunt then, and I ran over 1200 counties, often joining the CCN net during the evening. As gas prices rose, there was more time for the CCN!

I see the Master award as a celebration of teamwork of our club officers, net controls, mobiles, portables, QSL managers and all associated. Most difficult was working the required DX on 75 meters, but that was solved as a number of us near finishing put our heads together and--with help from many--managed to attract a number of DX to the net. If one is having a problem with an award here--such as Poker Player--merely put the word out on the reflector and help will arrive.

Javier, HR2J, was my last contact for the Masters on February 10th. It was also my father's birthday. Dad passed in my arms of a sudden heart attack when I was 14. In fact, the day before he worked on the roof to set up my antenna to make my very first QSO, which came in the wee hours of that morning. Rather than wake him in my glee, I decided to wait. He never knew. So Dad, this one's for you.

Carl Durnavich W9OO

EYEBALL 2012 PREVIEW

Eyeball 2012, hosted by Glen Felt, WTØA, will be held in Corn Husker country, eastern Nebraska to be exact, from Thursday July 26 to Sunday July 29, 2012. The event location will be the Eugene T. Mahoney State Park in Ashland, NE and the ticket price will be \$60 pre-paid and children under 16 are free.

You can register for Eyeball 2012 via our On-line Registration Page, see Who's Already Registered or see a Schedule of Events. See the links on the club website.

You may pay via Pay Pal (bottom of registration page), or you may mail a check for your registration fee to:

GLEN K. FELT, WTØA
416 COUNTY ROAD 600
FRIEND, NE 68359-2400

Lon Martin, K0WJ, will again be hosting the Mobile Shootout

	TBD	Meet for Breakfast Kewit Lodge or nearby Dennys	
	TBD	NE Eyeball Ends - 73	
	TBD	Cleanup	Sapp Lodge

All times shown are Eyeball local time (CDT).

Notes from the editor

This past year has been a year of change for me. Due to the changing economy I have started a new job and continue to work part time at my old job leaving me with fewer hours for play, especially with the radios. The one thing I do look forward too at the end of the day is visiting with my family and renewing friendships on The Century Club nets.

With the new year already here and with newly elected directors, I am renewing my vigor to publish the Centurion on a regular schedule. In order to accomplish this I need your help. I sent out requests for biographical information from each of your newly elected directors and even your new president. I received back one reply. Pretty sad in my opinion. Most of the information I have had to reproduce from information I have found online. I need help to track down and write articles.

I would like to thanks Ron Belanger - K8PGM and Carl Durnavich W9OO for providing their Biographies. I would also like to thank David Bartholomew AD7DB for his wandering Ham Article. A special thanks to Lon KØWJ for his excellent proof reading skills, and to Rick WB5FDP for providing all the awards information.

The 3905 century club is the greatest group of Hams anywhere around. We as a club have a tremendous amount of knowledge and experiences. I really need your help and support. Please share with your friends your stories and tips or even your mistakes, so we all can learn and become better Hams, citizens and people. See you at the 2012 eyeball

I welcome all comments and questions about this issue, the club or its operations.

You can reach me at:

rick@theasper.net or
