

# The Centurion

Volume 2014, Issue 1 January, Priceless

"What a severe yet master artist old Winter is....

No longer the canvas and the pigments,

But the marble and the chisel.

John Burroughs

The winter months approach, we take time to reflect upon the past year's many trials and tribulations that we have overcome which have contributed to building our character into the great and wonderful people we have become. We recall the good and fun times with our loved ones and the people we call friends. Old and new, young and young at heart, we can look back and smile with warmth in our hearts at the many celebrations and accomplishments we have achieved and armed

with the knowledge and determination to press forward towards even greater possibilities for our future. Together we can forge new friendships and create a bright and grand future. During the winter months the world changes around us. From the cooler nights and color changing leaves on the trees, to the stark - seemingly lifeless - branches sparkling with newly fallen snow blanketing the world in a sparkling white splendor, we can look out at this grandeur and see a blank slate, upon which we can write a new chapter of our lives where we can help each other improve and grow.

#### **Election 2012 - Final Results**

(Winning candidates in bold red)

(I) = Incumbe	nt	

President Russ Sawyer - W2UJ

I got my start in this wonderful hobby in 1963 when I sent away for the Short Wave Listener "call sign" - then issued by Popular Electronics magazine. This was at the same time I joined an activity club at my junior high school - called the "radio club". The leader of the club was a high school senior and he completely captured my imagination with his description of amateur radio. I was hooked! I 'aced' my novice exam, given at the high school and first got on the air as WN1AXB in November of 1963. Over the years, I've 'sampled' a lot of the different aspects that make this hobby so great - rag chewing, DXing, county hunting, field days, public service nets . and they've all been enjoyable. 75 meters has always been my favorite band and currently I find myself spending

a great deal of time on the 3905 Century Club net - nightly at 10PM Eastern Time on 3.902 I'm having a blast working on their many fine awards. Stop by and say 'hello'.

73, Russ

2nd Area Director: Peter Summers - N2XTT

Peter is a long time member of the 3905 Century club Master degree award number 6 holder Awards Committee member he is also the trustee of the club call K4CCN. Peter is the holder of the 38K award on 40M and 21K award on 75M and still going.

4th Area Director: Jim Higgins - KB3PU

Jim is our Club Information Officer ,Awards Committee Chairman, 4th Area Director, Club Recorder and our Webmaster Jim keeps the club running smooth and professionally. Give him a shout next time you hear him on the nets and thank him for the service he does.

6th Area Director: George Huett - W6LJK

George is not only the 6th Area director but our 40M Late net coordinator. He resides in Anaheim CA. He does not run a mickey mouse operation. Or does he? He has a great station and it is always a great pleasure to hear him on the nets.

8th Area Director: Ron Belanger - K8PGM

I was born and raised in the state of Maine, although by the time I graduated from high school we had moved to Connecticut. When the shoe shop in Saco, Maine had closed my dad went to work as a tanner for Garlands (rawhide mallets) and they eventually converted to plastics meaning there was little need for a tanner so, we ended up in Connecticut. I still managed to get back "Home" every summer and did much of my hunting/fishing in Maine as well. I guess you can take the kid out of Maine, but you'll never take Maine out of the kid!

After high school I joined the Navy. I guess I figured out at an early age that going to college wasn't in my future. I didn't like school and thought wasting my folks money doing something I didn't want to do wasn't such a wise move. While I hated school, I loved to read, and had the idea (right or wrong) there was nothing school could teach me that I couldn't learn on my own. While a formal education was never acquired, I'd match libraries with most who are not doctors or lawyers. Someone once told me I missed out on the fun of going to school. My response is usually "Really?" How much fun can an 18 year old have stationed in the Med for 3 years when the ports of call include everywhere from Spain to Yugoslavia? No, there will be no sea stories shared here you'll just have to use your imagination.

I would eventually spend the last 14 years of my naval service in Washington D.C. with a preferentially manned White House Unit. It was in 1975 while living in Maryland that I was first licensed as a "Ham." I went from Novice to Advanced (WB3GZI) in no time but never got my Extra license. I just got so busy with the Navy and providing for my family with part time jobs it just got shelved. I would spend hours however running phone patches for ships at sea and deployed personnel as far away as the Antarctic. Sometimes on the weekends and holidays I'd run those patches until the wee hours of the morning. I used to really look forward to Sunday evening as a good friend and fellow service member and I had a regular schedule with "Pappy Boyington" who had retired in Hawaii.

## www.3905ccn.com

10th Area Director: Ray Myers - WBØPYF

I have been a ham for about 37 years. I enjoy working CW. I joined FISTS Club (#7986) and had a lot of fun (www.fists.org).

I have also joined the 3905 CCN Club. It is a DX and WAS club. Have brushed off my mic and made many new friends on SSB, CW and also 160 M. Also, because of the 3905 CCN Club, I have ventured into the world of digital. What fun on such low power (www.3905ccn.com).

My grandfather was W9GHX and when I was a novice I used his old gear. I only had xtals for 80m and 40m CW (3). I still have some of his equipment and occasionally I am on the air working CW on the 80 and 40-meter bands.

See his club information @ http://www.qrz.com/db/W9GHX.

If anyone has an old QSL card from him I would like to have it or a copy of it.

My current rig is a Icom IC-756-3 and am using a Gap Titan vertical antenna on a roof mount or a 80m dipole up 55 feet. I have a Yaesu FT-100D which I use mobile and a QRP Heathkit HW-8 which I enjoy operating portable or fixed.

I recently have become disabled and I am now confined to a wheel chair. If I am a little slow on the mike or a little sloppy on the key, I am sorry, pedaling as fast as I can with one hand hi hi. My how life can change so quickly. Always remember to enjoy life every day and live it daily to its fullest.

I am a registered civil engineer by profession, but currently I am not working. I also am a CFII flight instructor and teach private, instrument and commercial ground school.

I try and QSL 100% as I enjoy collecting cards from all over.

The Century club is lucky to have these great people running the affairs of the club and I would like to voice the appreciation of all for their service in making this a great club involving many of us interested in this fine hobby.

Editors note: It is great to get to know the many members of our club and I would like to hear from more of you if you would be willing to share you biographies with the rest of the club please contract me I'm a retired Economic Developer after working

### **New Master 66**

K3CD Thomas J. Edmonds

with the State of NC Department of Commerce and earlier as Director of Economic Development with Caswell County, NC. I got a BS from Clemson University in 1974 and an MBA from Averett University in 1989. I do some consulting work developing strategic plans and volunteer work with non-profits but I mainly just hang around the home place working on the landscape or whatever else I feel like.

I got into Ham radio by pure coincidence. I had been an SWL since the early 1960's when my father was stationed at Kadena AFB on Okinawa. In 2004, I was looking for another radio with SSB capability for monitoring MilComms and a friend suggested I get a ham radio. I found a used Yaesu FT840 for \$300 and since it could transmit I decided to get a ham license, but, I had no idea how to properly work a radio station. While tuning around one night I found the 3905 Century Club and checked into the net. That helped me gain experience working stations and became a great hobby. I started running NCS to get extra calls and began to enjoy being NCS. I would encourage anyone to be NCS. It gives you great exposure. I mainly worked 75m for years and got to 6k and many other awards on that band. 40m was often

crowded but I worked that band and gradually got some awards on it. I changed my call from KI4GAK to 2-letter K3CD in 2006 to get more calls and make my callsign easier to say since KI4GAK was such a mouthful.

Although I passed the code test for my General ticket I never worked CW. And I had no clue about RTTY or PSK. My knowledge was basically limited to passing tests and beyond that I had no idea how work digital modes. I'd worked most stations on SSB and had gotten so many awards that all I needed for my Masters was 100 point CW, RTTY and 160m SSB and 40m 2K. I got up with Donnie KG4ZOD who helped me get started with CW and Jim (Paul) N4CE who helped with RTTY. I worked portable from their QTHs until I felt comfortable. I bought a Signalink USB Interface and downloaded and older version of Ham Radio Deluxe software and N4CE set it up on my computer. Then I started operating from my home. I really enjoy the digital mode nets now. There aren't a lot of checkins and you get to work a lot of stations quickly. Most of all I found you get to know some of the regular SSB operators a lot better while working the digital modes. I feel close to many 3905 members even though I've only made eyeball contact with a few and have never attended and Eyeball. It's really great group of people.

I suggest working Montana, Rhode Island,

Vermont and combo stations at every opportunity and mobiles as well. On progressive awards, start filling in the Level III and work backwards. And start being NCS. It's not that hard, you get lots of help and you can make 2 calls each round at any time during the round. If I could have done one

thing different it would have been to work the digital modes sooner. With the decoding software that's readily available there is no reason to be afraid of CW. Although from the purist perspective it's cheating to use your computer keyboard, if you can type on a keyboard you can do the CW. RTTY and PSK are easy once you're set up. I never experienced anyone with the 3905 Century Club that wasn't willing to help. In getting my Masters the true credit goes to the members and newcomers of the 3905 Century Club that helped me along the way. It's not so much what I did as what they did for me and I could not have done it without them.

Tom celebrating after finally making contact with Don WU9T on 80M CW one of the final contacts needed for his Masters Degree Award.

# Wandering Ham

Tom K3CD visiting KG4ZOD

Operating from the Monster Station of North Carolina

Dwight WF4H visiting KG4ZOD
Apparently these two boxes are somewhat dependant and related to each other.
Who's to argue with the great operator.

Left to Right Donnie KG4ZOD,Robert KE4DYG, Dwight WF4H and Lee K4LAL

Dwight WF4H visiting KG4ZOD Operating from the Monster Station of North Carolina

The newly Remodeled Monster Station of N.C.

Jim KB3PU with Frank K4ZC at the Benson NC Hamfest.

Frank relinquishes 3.902 every night to Earl W1BML so our net can begin. Frank is a Super nice guy and a Great operator.
